

A close-up photograph of a large pile of light brown, cylindrical biomass pellets. The pellets are densely packed and show some texture and slight variations in color.

PREMIUM BIOMASS PELLETS

SURYAWANSHI BIOENERGY

ENGINEERED FOR MAXIMUM
THERMAL EFFICIENCY

Delivering sustainable, high-density biofuels from
farm to factory.

About Us & Our Process

Suryawanshi Bioenergy is a renewable energy manufacturer dedicated to converting agro-residues into high-yield biomass pellets. We provide sustainable, efficient, and eco-friendly thermal energy solutions for heavy industries, helping them transition away from fossil fuels.

01

Strategic Biomass Sourcing directly from farmers.

02

Thermal Dehydration & Refining (moisture calibrated below 12%)

03

High-Compression Densification (up to 4500 kcal/kg)

04

Stringent Quality Assurance & Logistics.

Our Product Catalog

Groundnut Shell Pellets

- Size: 6-12 mm diameter
- Calorific Value: ~4200 - 4500 kcal/kg
- Ash Content: 4-6%
- Moisture: Below 10%

Mustard Pellets

- Size: 6-12 mm diameter
- Calorific Value: ~4000 - 4200 kcal/kg
- Ash Content: 5-7%
- Moisture: Below 10%

Sawdust / Wood Pellets

- Size: 6-12 mm diameter
- Calorific Value: ~4000 - 4600 kcal/kg
- Ash Content: 2-5%
- Moisture: Below 10%
